

February 12, 2010

I have the pleasure of knowing Ms. Suzuki in two different capacities, as a professional business owner and as an educator. She is an excellent volunteer trainer in the area of youth facilitation. Our teens are continuously motivated by Ms. Suzuki's ability to transform their learning experience. Her primary volunteer responsibilities are providing training sessions that increases our youths' independent living skills for self-sufficient transition. I can assure you that she is well capable of providing knowledge and goal-focused achievements that are needed for individual success. Ms. Suzuki is passionate about learning and stands true to her philosophies on the necessity of giving back to your community. She is creative, deeply conscientious, professional, forward-thinking and hard-working.

Sincerely,

Angie Bailey
